Portfolio: senith-dakshina

SUMMARY

I am a passionate and dedicated undergraduate in Computer science with strong theoretical and practical knowledge. I quickly learn new technologies and thrive in both independent and team environments, consistently aiming to deliver positive outcomes. Eager to contribute to innovative projects and expand my technical skills, I am committed to making a meaningful impact in the IT industry while working toward my goal of becoming a software engineer.

EDUCATION

BSc (Hons) Computer Science & Technology Uva Wellassa University 2021 - Present

- Cumulative GPA: 3.30.

G.C.E (A/L) Examination 2016 - 2019

- Sri Sumangala College - Panadura

PROJECTS

A Deep Learning Approach for Solar Power Generation Forecasting and Identification of Peak, Valley, and Curtailment-risk periods for Grid Stability in Sri Lanka Nov 2025 - Present

- Developing a deep learning-based forecasting approach to predict hourly solar power generation and electricity demand.
- Identifying operational risk periods to support proactive grid management.
- Evaluating model performance using standard error metrics (MAE, RMSE, MAPE) and visualizing forecast results to extract key operational insights.
- **Key Technologies:** Python, TensorFlow, Keras

A full-stack e-commerce platform developed for a real client with personalized jewelry suggestions. April 2025 - Nov 2025

- Built an NLP driven system that recommends necklaces based on user questionnaire data.
- Created a Python pipeline that detects face and neck landmarks for precise product placement.
- Developed a Virtual Try-On feature that overlays necklace designs onto user images.
- Integrated recommendation and detection modules into a secure Spring Boot backend and optimized PostgreSQL queries.
- **Key Technologies:** Spring Boot, React, PostgreSQL, Python

NoteSync - Note Taker Web Application (MERN Stack) Sept 2025 - Oct 2025

- Developed a full-stack Notes Management Platform featuring secure REST APIs, Upstash Redis rate limiting, optimized backend endpoints, responsive UI, and full deployment on Render.
- **Key Technologies:** MongoDB, Express.js, React, Node.js, Tailwind CSS, Upstash Redis, REST API, Render Deployment.
- **Live Demo:** <https://mern-note-app-5.onrender.com>

Real Estate Management System Feb 2024 - May 2024

- A full-stack real estate management platform built with Django and React, featuring role-based authentication, dynamic property management, and a responsive user interface for streamlined usability.
- **Key Technologies:** Django, Python, React, React Bootstrap, Django ORM, SQLite, MVC Architecture.

- Developed a donation platform connecting donors with individuals needing financial support for medical operations, ensuring transparency, security, and real-time engagement.
- Integrated secure payment processing
- **Key Technologies:** PHP (OOP), MySQL, HTML, CSS, JavaScript, Bootstrap

TECHNICAL SKILL

- | | | | |
|---------|----------------|-----------|------------|
| • Java | • Python | • MySQL | • GitHub |
| • React | • Tailwind CSS | • MongoDB | • Docker |
| • HTML | • Bootstrap | • Postman | • Adobe PS |
| • CSS | • PHP | • aws | • Canva |

VOLUNTEERING

Main Coordinator – CST LAN Challenge, Uva Wellassa University

- Led the planning and execution of a university-level eSports competition hosted by the Department of Computer Science and Technology, managing a team of 10+ members.
- Successfully organized the event for 200+ participants, demonstrating leadership, project management, and team collaboration skills.

EXTRA CURRICULAR ACTIVITIES

Badminton

- | | |
|---|--------------------|
| • Champion – All-Island Interschool Championship(Boys-D division) | 2010 |
| • Uva Wellassa University Badminton player | 2021 - 2023 |

SOFT SKILL

- | | |
|--------------------------|-------------------|
| • Creativity Logical | • Time Management |
| • Thinking Communication | • Team Management |

CERTIFICATIONS

- Docker Foundations Professional Certificate | LinkedIn Learning
- AWS Essential Training for Developers | LinkedIn Learning
- Python Programming Course | University of Moratuwa (CODL)
- Advanced React | coursera
- Microsoft Azure AI Essentials: Workloads and Machine Learning on Azure | LinkedIn Learning
